FOR A MORE PROSPEROUS, EQUITABLE AND PROGRESSIVE UTREA

Over the past two years, I have had the honor of serving Utreas as Prime Minister. Over the past two years alone, we have come a long way. We've grown the economy by 103.57% from October 2023 to May 2025. We've kept inflation at the lowest rates seen in any administration of Parliament in Utrean history. We've ensured that small and medium sized businesses, as well as individuals who needed economic support could receive adequate support, efficiently, and speedily. We've introduced a 45% subsidy on essential sanitary products, ensuring that essential products do not break individual budgets.

We've introduced several new criminal laws to advance our criminal law system and judicial system.

We have also maintained Utreas's peaceful status, keeping us out of unnecessary and costly military conflicts by promoting diplomacy. Additionally, we've signed several new trade deals, treaties of mutual recognition, mutual defense pacts, and alliances.

Our nation thrives when every citizen has the chance to succeed. That is why our campaign is guided by three principles:

EQUITY ensures that all Utreans, wherever they live and whatever their background, have access to the opportunities and support they need to build a better life.

PROGRESS drives us to embrace innovation, strengthen our institutions, and modernize our economy while leaving no one behind.

PROSPERITY means growing an economy that benefits everyone, creating jobs, expanding opportunities, and investing in a future where every Utrean can thrive.

Together, we can continue to build a Utreas that works for everyone.

Signed,

Prime Minister H.M. & H.E.

Life in Animation I

Emperor H.I.M.

Emperor Braden I

PROSPERITY

Utreas's **prosperity** depends on policies that strengthen the **economy**, empower citizens, and ensure fairness for **all**. In the next term, our focus will be on:

- **Reducing unnecessary burdens on everyday Utreans so that they can keep more of what they earn.**
- **Investing wisely in national priorities, from defense to essential services, ensuring sustainable growth.**
- **Stabilizing key markets to keep daily necessities affordable and predictable for all households.**

Through these steps, we aim to create a Utreas where opportunity, security, and growth are available to **every** citizen.

PROSPERITY

REDUCING THE BURDEN ON UTREANS - SALES ADDED TAXES

Lower Consumption Taxes: As the government's fiscal position continues to strengthen, we'll:

- Eliminate the February 2024 Sales Added Tax hike, reducing the Sales Added Tax rate to 35% from 37%, a 5.5% reduction.
- Look into further reductions in the Sales Added Tax rate.

PROSPERITY

INVESTING IN THE UTREAN ARMED FORCES

Purchase of New Equipment: We'll invest T300.00 - T900.00 in new medical and other equipment for the Utrean Armed Forces during the end of this Fiscal Year, and during Fiscal Year 2026-27.

Continuing the Revamp of the Military Structure: We'll continue revamping, upgrading and changing our military structure, so that way we can begin enlisting more and more military personnel at a stable, affordable and efficient pace.

PROSPERITY

SALT MARKET STABILIZATION ACT

Passing the Salt Market Stabilization Act: We'll introduce and pass the Salt Market Stabilization Act. This Act will:

- Cap salt prices at **CAD\$0.80/kg**
- **Subsidize** business or individual import costs which are above **CAD\$0.80/kg**
- Ensure continued **affordability** of day-to-day **essentials**

PROSPERITY

INCREASING THE NEW CITIZEN STIMULUS PAYMENT

Increasing the New Citizen Stimulus Payment: We'll Increase the New Citizen Stimulus Payment from T385.00 to T500.00, ensuring all New Utrean Citizens receive a higher amount reflecting the increased cost of living since the last modification made to such payment in September 2023.

Provide Top-Ups to Existing Utrean Citizens: We'll also provide a T185.00 top-up to all existing Utrean Citizens, similar to the Top-ups made in September 2023 when this payment was last adjusted. This will ensure all Utreans who became a citizen at an earlier date, still receive an equal benefit payment. This top-up will also be tax-free, meaning such payment will not be taxed, regardless of your income during such month. Your other employment income will still be taxed as usual.

PROSPERITY

ALCOHOL TAX EXPANSIONS

Alcohol Tax Expansions: We'll look into all possible ways to expand the Liquor Tax Act, by:

- Adding other types of Alcohol, including Wine, Spirits, and more, at the same, higher, or lower tax rates, reflective of the potential health upsides or downsides.

EQUITY

A fair society is one where all Utreans have the tools and support they need to succeed. We believe in providing strong social programs while encouraging personal initiative and community growth. In the next term, we will focus on:

- **Strengthening support for vulnerable citizens, so they can live with dignity and independence.**
- **Reducing barriers to opportunity, making essential services and resources accessible to all.**
- **Investing in programs that empower Utreans, helping families and individuals achieve stability and long-term success.**

The following sections outline the specific policies and initiatives we will implement to create a Utreia that is fair, inclusive, and economically resilient.

EQUITY

INCREASING THE UTREAN DISABILITY BENEFIT

We will increase the Utrean Disability Benefit, established in the Social Assistance Establishment Act (2023), which currently provides a monthly disability benefit amount of ₺1,220.00 to all UDB recipients. That payment is reduced by ₺240.00 for every ₺100.00 of income exceeding ₺1,220.00.

The **Utrean Disability Benefit** will be **increased to ₺5,000.00 from ₺1,220.00**. The eligibility reduction will be changed to reduce only **₺50.00 for every ₺100.00** of unrelated income exceeding **₺2,500.00**

We will also ensure that you can receive both the Utrean Disability Benefit and the Utrean Cash Assistance Program at the same time, to ensure that the most vulnerable Utreans see the highest possible benefits.

EQUITY

INCREASING THE UTREAN CASH ASSISTANCE PROGRAM

We will increase the **Utrean Cash Assistance Program**, established in the Social Assistance Establishment Act (2023), which currently provides a monthly cash benefit payment amount of ₺1,000.00 for 1 eligible individual. That payment is reduced by ₺200.00 for every ₺100.00 of income above the Monthly Poverty Threshold.

The **Utrean Cash Assistance Program** will be **increased** to **₺2,750.00** from **₺1,000.00**.

The eligibility reduction will be changed to reduce your benefit amount by only **₺50.00 for every ₺100.00**, instead of the current reduction of ₺200.00 for every ₺100.00 of income above the Monthly Poverty Threshold.

EQUITY

ESTABLISHING AN ANNUAL PAYMENT TO ASSIST WITH THE COST OF SANITARY PRODUCTS

We will look into the many ways we can expand the Subsidized Sanitary Products Act, or increase the subsidies established within it. We'll also look into the many other benefits we can establish to work in accordance with the Subsidized Sanitary Products Act, to ensure all Utreans can afford basic essentials at all times.

EQUITY

DOUBLING THE FOOD FOR ALL ACT PAYMENTS

The Semi-Annual Dietary Supplement Payment established in 2025 through the **Food For All Act**, will be increased from its **current semi-annual payment** of **T1,584.00** to a **semi-annual payment** of **T3,168.00**. This will make the **new annual payment** a **total sum** of **T6,336.00**, **increased from T3,168.00**.

EQUITY

“GET MONEY MOVING” TAX ON ERCOI

We'll implement a **T500.00 monthly tax on the Electric Reliability Control of Idosea**, to ensure that the large sums of liquid cash that is currently being held by ERCOI can be **invested** into more programs, infrastructure, and other essential government services to benefit all Utreans. This will bring up to **T6,000.00 in new revenues** for the Government. By having **large corporations pay their fair share**, we can continue to **invest in more and more programs that benefit Utreans**, especially **those most vulnerable, every single day**.

EQUITY

PAID PARENTAL LEAVE FOR NEW ADOPTIVE PARENTS

We'll ensure paid leave is fair for all families, by introducing a 9-month parental leave for adoptive parents, including 2SLGBTQIA+ families, so they get the same benefits to help care for their kids as everyone else. Both adoptive parents will each be eligible to/for 9-months of paid parental leave.

We'll also introduce a 9-month parental leave, for the second parent, as currently our Maternity Leave Act only provides paid leave for new Mothers. This may be taken at the same time as the Mother takes maternity leave, or after the mother takes maternity leave. New single Mothers will not be eligible for this 9-month leave after the expiration of their 504 day Maternity Leave, however, they may receive an extended Maternity Leave up to 564 days.

PROGRESS

Progress means creating a society that works for everyone, today and tomorrow. We believe in innovation, fairness, and continuous improvement, ensuring that Utreans can thrive in a safe, prosperous, and modern nation. In the coming years, we will focus on:

- **Guaranteeing economic security for all, including programs like Universal Basic Income to ensure that no Utrean is left behind.**
- **Modernizing our laws and institutions, so that justice, safety, and fairness are accessible to all.**
- **Investing in innovation and public programs, to improve quality of life, expand opportunity, and build a sustainable future.**

The following sections outline the specific policies and initiatives we will implement to make Utreia a nation that is innovative, just, and future-ready.

PROGRESS

UNIVERSAL BASIC INCOME PILOT PROGRAM AND ESTABLISHMENT

We will launch Utreas's first ever Universal Basic Income Pilot Program, and look towards establishing a permanent, full-scale Universal Basic Income program, with very few requirements, to ensure that all Utreans receive the benefits, but in a way where it is still fair to everyone. Below, some tables will be presented detailing **potential** payment amounts and schedules for both the initial pilot program, and a permanent program. It'll also show the projected budgetary costs, both in Utrean teske, and as a percentage of our surplus in Fiscal Year 2024-25.

Pilot Program (Beginning January 1st 2026, lasting until June 1st 2026) (Result: UBI cancelled to be reworked)

Quarterly Payment Amount	Estimated Eligible Individuals	Total Cost (in teske)	Total Cost (as a % of FY 2024-25 surplus)
T831.00	8	T13,296.00	2.09%
T831.00	9	T14,958.00	2.35%
T1,029.00	9	T18,522.00	2.91%
T1,100.00	9	T19,800.00	3.11%

Pilot Program (Beginning January 1st 2026, lasting permanently) (Result: UBI success, pilot established into permanent system) (Total cost is the total F.Y. 2026-27 cost, e.g. April 1st 2026 - March 31st 2027)

Quarterly Payment Amount	Estimated Eligible Individuals	Total Cost (in teske)	Total Cost (as a % of FY 2024-25 surplus)
T831.00	8	T26,592.00	4.17%
T831.00	9	T29,916.00	4.70%
T1,029.00	9	T37,044.00	5.81%
T1,100.00	9	T39,600.00	6.21%

PROGRESS

UNIVERSAL BASIC INCOME PILOT PROGRAM AND ESTABLISHMENT

**Pilot Program (Beginning January 1st 2026, lasting until June 1st 2026,
maximum eligibility possible)**
(Result: UBI cancelled to be reworked)

Quarterly Payment Amount	Estimated Eligible Individuals	Total Cost (in teske)	Total Cost (as a % of FY 2024-25 surplus)
T831.00	15	T24,930.00	3.91%
T831.00	16	T26,592.00	4.17%
T831.00	17	T28,254.00	4.43%
T1,029.00	17	T34,986.00	5.49%
T1,100.00	17	T37,400.00	5.87%

As our surplus is forecasted to grow from T637,477.41 in Fiscal Year 2024-25, to T817,337.53 in Fiscal Year 2025-2026, that means, as shown on the tables, we're able to fund UBI utilizing just under 12% of our current surplus at maximum levels. That'd be under 10% of our projected surplus for Fiscal Year 2025-2026.

**Pilot Program (Beginning January 1st 2026, lasting permanently,
maximum eligibility possible)**
(Result: UBI success, pilot established into permanent system)
(Total cost is the total F.Y. 2026-27 cost, e.g. April 1st 2026 - March 31st 2027)

Quarterly Payment Amount	Estimated Eligible Individuals	Total Cost (in teske)	Total Cost (as a % of FY 2024-25 surplus)
T831.00	15	T49,860.00	7.82%
T831.00	16	T53,184.00	8.35%
T831.00	17	T56,508.00	8.87%
T1,029.00	17	T69,972.00	10.98%
T1,100.00	17	T74,800.00	11.74%

PROGRESS

LOOKING INTO THE INCOME TAX ACT TO FIND WAYS TO REDUCE TAX BURDENS ON UTREANS

Lastly, as part of our final economic plans, we will also look into the Income Tax Act to see how it can be modernized, reworked, or otherwise changed to ensure that the lowest income brackets continue to share the lowest tax burden both for individuals, and small businesses.

This may include measures such as:

- **Eliminating the lowest Income Tax Bracket of 11% on Utreans which earn 0-500 teske, and 13% on Utrean Small Businesses which earn 0-500 teske.**
- **Eliminating the 14% tax bracket on Utreans which earn 501-1,000 teske, and 16% on Utrean Small Businesses which earn 501-1,000 teske.**
- **Only collecting income taxes on Utreans which have earned over 1,501 teske in that month, raising the start of the 20% income tax bracket from 1,001 teske, to 1,501 teske.**
- **Potentially, but not yet certain of adoption or use, looking into adopting a Marginal Tax System with new tax rates and slightly different or new tax brackets, replacing the current Cliff Tax System.**

PROGRESS

CONTINUING TO ADVANCE OUR CRIMINAL LAWS AND MAINTAIN A ZERO CRIME ENVIRONMENT

We'll introduce additional Criminal Laws to Parliament to ensure that our justice system develops, and so that we have laws to deter criminals. We'll work towards continuing to ensure Utrex remains a zero crime environment by passing new criminal laws, continuing to work on restructuring our Police system, and ensuring our laws and our justice system remains fair.

PROGRESS

ANNUAL ELECTRICITY REGISTRATION FEE

We'll introduce a **T500.00** annual electricity registration fee, which all individuals, businesses or other entities who purchase electricity from ERCOI or other Utrean Electricity Grids must pay every calendar year.

CONCLUSION

WHAT WE'VE DONE SO FAR AND MY ACHIEVEMENTS AS PRIME MINISTER OF UTREA

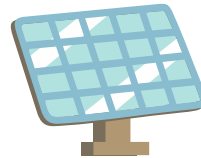

I tabled the Subsidized Sanitary Products Act (August 2023) in Utreá's National Parliament, reducing prices by 45% on essential sanitary products.

We've strengthened Utreá's Criminal Laws, and worked to ensure Utreá remains a low or no crime environment.

We've ensured consistent inflows of foreign exchange into the Utrean Empire, and secured thousands of dollars of investments from Canada and Ontario, and private investors.

We helped to fund and facilitate Utreá's 100% solar powered electric grid, to ensure that we do our part in mitigating the Climate Crisis.

We've ensured continued economic growth, significantly enhanced economic predictability, and kept prices low and inflation stable.

We've introduced a tax on all single-use plastics and single-use plates, ensuring that we reduce waste as much as possible and promote recycling and multi-use items.

We introduced the Social Assistance Establishment Act, establishing the Utrean Disability Benefit to ensure that all Utreans have fair and equal opportunities to succeed and live independently.

We've introduced an environmental tax on the purchase of electronics, ensuring that we invest in environmental protection while promoting the sustainable, innovative use and purpose of technology.

We also introduced the Utrean Cash Assistance Program, providing cash assistance to Utreans below the Monthly Poverty Threshold to assist with food, housing, water, electricity, and other essential costs.

We've signed new trade deals, alliances, treaties of mutual recognition, treaties of mutual defense, and other agreements with several nations. We've also joined the Intermicronational Alliance.

We've reduced food insecurity from 70% in November 2022 to 0-21% today.

We've provided aid to areas with humanitarian emergencies, especially natural disasters. We've also provided allies, and our External Territory with timely forecast information, ensuring their regions and populations have adequate time to prepare for incoming natural disasters

We've also established the Utrean Emergency Assistance Program, providing emergency assistance to Utreans experiencing emergencies, natural disasters, medical emergencies, sudden loss of income, or sudden unexpected urgent expenses.

CONCLUSION

MEET LIFE IN ANIMATION AND HER PORTFOLIO

Life in Animation founded the Liberal Party of Utreia on August 8th 2021. We ran in Utreia's first ever official General Election which was held on September 7th 2021.

During that General Election, Life in Animation contested for Prime Minister, ultimately securing 7.10% of the vote.

Life in Animation did not contest in the October or November 2021 General Elections, but contested in the December 2021 General Elections. Since then, they have contested in every General Election, they have previously contested in provincial elections, and they previously have secured mayoral positions in Utreian cities or towns.

They went from securing 7.10% of the vote in September 2021, to nearly 86% of the vote in the October 2024 General Election.

Life in Animation guided us through the 2022-23 Economic Recession as President of the Utreian Empire, and put us on the path for a historic recovery and historic period of economic, trade, and diplomatic growth.

Below, all of her current or previous terms in Central Government Office have been listed:

Life in Animation's Terms:

August 2021 - September 2021 - Prime Minister

December 2021 - April 2022 - President

January 2022 - April 2022 - Prime Minister

April 2022 - October 2022 - Prime Minister

October 2022 - April 2023 - President

April 2023 - October 2023 - President

November 2023 - October 2024 - Prime Minister

November 2024 - October 2025 - Prime Minister
